DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Henry on 1/6/2005.

The application has been amended as follows:

In claim 63, line 2, after "circuit", "including a state machine" has been inserted.

In claim 64, after "claim 63", "further comprising" has been deleted and "wherein the state machine further comprises" has been inserted.

In claim 65, after "claim 63", "further comprising" has been deleted and "wherein the state machine further comprises" has been inserted.

In claim 66, after "claim 63", "further comprising" has been deleted and "wherein the state machine further comprises" has been inserted.

In claim 67, after "claim 66", "further comprising" has been deleted and "wherein the state machine further comprises" has been inserted.

In claim 68, after "claim 63", "further comprising" has been deleted and "wherein the state machine further comprises" has been inserted.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Prior art of record does not disclose, in single or in combination, a locked state corresponding to a predefined number of local clock cycles generated by local clock generating circuit is observed between successive occurrences of a global synchronization signal provided to each of the plurality of components of distributed system, entering a short state from locked state when one less than predefined number of local clock cycles is observed between successive occurrences, entering the locked state from short state when one or more than predefined number of local clock cycles is observed between successive occurrences, entering an alarm state from short state when one less than predefined number of local clock cycles is observed, entering a long state from locked state when one more than predefined number of local clock cycles is observed, entering the locked state from long state when one less than predefined number of local clock cycles is observed, and entering the alarm state from the long state when one more than the predefined number of local clock cycles is observed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
